

Dear Airport Security Screening Agent,

This letter is to confirm that _____ is currently using the Uresta bladder pessary, a vaginally inserted medical device made from thermoplastic elastomer resin, which may be detected on your airport scanner (similar to menstrual cups).

Use of this product during air travel is permitted by both domestic and international travel regulations (e.g. CATSA, TSA). We ask you that this traveler's right to medical privacy be respected.

We thank you for your understanding and discretion.

Sincerely,

Uresta
